

AI Interaction Scoring Rubric

Total Score = (Sum of Positive Points) – (Sum of Negative Points)

Criteria	Round 1 Points	Round 2 Points
Positive Interactions		
Original Input / Brain Dump (provides their own ideas or draft text to prompt the AI.)	+5	+5
Rewrote/Paraphrased or Integrated AI Feedback (re-words or applies suggestions in their own words.)	+5	+5
Asked not to rewrite their work (Instructs chatbot to only provide feedback and not provide full revisions)	+3	+3
Asked for Feedback or Suggestions (“How can I improve this paragraph?”)	+2	+2
Asked for something to be explained (“Can you help explain what makes a good ____.”)	+1	+1
Assigned a Role to the Chatbot ('You are a writing tutor; help me refine my argument.')	+1	+1
Provided Clear Instructions to AI ('Only provide feedback, don't rewrite my work.')	+1	+1
Extended Engagement / Iterative Development (Engages in 5 or more distinct interactions that build on earlier responses)	+1	+1
Negative Interactions		
“Write It All for Me” Request (“Write my entire introduction for me.”)	-5	-5
Copy-Paste Without Revision (Uses AI text verbatim without personal rewording or reflection.)	-5	-5
Using AI to Bypass Thinking (“Simplify that” or “Give me an argument.” or “Make it sound like a 10th grader.”)	-3	-3
No Iteration (Only one prompt with no follow-up questions or refinement.)	-2	-2
Off-Topic or Inappropriate Usage (Content deviates significantly from the assignment.)	-1	-1
Limited Engagement (Engages in less than 5 distinct interactions that build on earlier responses.)	-1	-1
