

Idea Mode

GENERATE, NARROW, AND CHOOSE

TASK: Come up with a new _____.

Complete the same academic task twice. After each round, a peer scores the conversation—not only the final answer. Add positive points, subtract negative points, and compare what changed.

POSITIVE POINTS	Value	Round 1	Round 2
Clearly Defines the Task “Your task is to...”	+5		
Gives Clear Background Information and Limits “This is for... and should include... Avoid...”	+5		
Engages in Selective Exploration “I like # ___. What are 5 more ideas related to that?”	+5		
Defines the Role of AI “You are a(n)...”	+3		
Keeps the Conversation Going Engages in 5 or more back-and-forths with the chatbot.	+2		

NEGATIVE POINTS	Value	Round 1	Round 2
Picks the First Idea Too Quickly “That works. Let’s just go with that.”	-5		
Asks for More Without Choosing “Give me 20 more ideas.” (repeated)	-5		
Gives No Background Information or Limits Provides no audience, setting, tone, or boundaries.	-5		
Limited Engagement Stops engaging with the chatbot after the first request.	-2		

Round 1 total: _____	Round 2 total: _____	Change: _____
-----------------------------	-----------------------------	----------------------

Exit reflection: What did you change between rounds, and why did it improve the academic interaction?

Learning Mode

BUILD UNDERSTANDING, NOT A SHORTCUT

TASK: Prepare for a presentation on _____.

Complete the same academic task twice. After each round, a peer scores the conversation—not only the final answer. Add positive points, subtract negative points, and compare what changed.

POSITIVE POINTS	Value	Round 1	Round 2
Assigns a Role to the Chatbot “You are a supportive tutor...”	+5		
Clearly Defines the Learning Goal “Your task is to...”	+5		
Explains What They Already Know “I understand ____, but I’m confused about ____.”	+5		
Actively Steers the Learning Asks for a connection, simpler explanation, example, or clarification.	+5		
Extended Engagement Engages in 5 or more back-and-forths with the chatbot.	+2		

NEGATIVE POINTS	Value	Round 1	Round 2
Outsources the Final Product “Create a presentation on ____.”	-5		
Gives No Learning Context “Explain ____.”	-5		
Requests a Script Instead of Understanding “Write exactly what I should say.”	-5		
Uses AI to Bypass Thinking “Make it sound like a 10th grader.”	-3		
Limited Engagement Stops engaging with the chatbot after the first request.	-2		

Round 1 total: _____	Round 2 total: _____	Change: _____
----------------------	----------------------	---------------

Exit reflection: What did you change between rounds, and why did it improve the academic interaction?

Feedback Mode

THE STUDENT WRITES; AI HELPS IMPROVE

TASK: Write the best possible introduction paragraph on _____.

Complete the same academic task twice. After each round, a peer scores the conversation—not only the final answer. Add positive points, subtract negative points, and compare what changed.

POSITIVE POINTS	Value	Round 1	Round 2
Shares Their Own Draft First “Here is my draft of what I wrote so far...”	+5		
Sets a Boundary “Do not rewrite my draft. Provide supportive feedback.”	+5		
Asks for Feedback or Suggestions Requests clear, concise, actionable feedback.	+5		
Assigns a Role to the Chatbot “You are an expert in providing supportive feedback.”	+3		
Extended Engagement Engages in more than 1 meaningful back-and-forth.	+2		

NEGATIVE POINTS	Value	Round 1	Round 2
“Write It All for Me” Request “Write my entire introduction for me.”	-5		
Copy-Paste Without Revision Uses exact AI text without rewording or reflection.	-5		
Uses AI to Bypass Thinking “Make it 1 page long” or “Make it sound like a 10th grader.”	-3		
Limited Engagement Stops engaging with the chatbot after the first request.	-2		

Round 1 total: _____	Round 2 total: _____	Change: _____
----------------------	----------------------	---------------

Exit reflection: What did you change between rounds, and why did it improve the academic interaction?

Practice Mode

REHEARSE IN A REALISTIC SIMULATION

TASK: Prepare for an upcoming _____.

Complete the same academic task twice. After each round, a peer scores the conversation—not only the final answer. Add positive points, subtract negative points, and compare what changed.

POSITIVE POINTS	Value	Round 1	Round 2
Clearly Defines the Scenario Names the situation, setting, and other person.	+5		
Defines Roles and Tone “You are the _____. Be _____ in your responses.”	+5		
Sets Rules for the Interaction One question at a time; challenge unclear answers; adjust difficulty.	+5		
Defines the End and Feedback “After 5 exchanges, provide feedback on my performance.”	+5		
Adjusts an Unrealistic Simulation Directs the chatbot to make the practice more authentic.	+5		

NEGATIVE POINTS	Value	Round 1	Round 2
Makes a Vague Simulation Request “Help me prepare...”	-5		
Asks for Advice Instead of Simulation “What should I say?”	-5		
Has No Plan for How It Runs or Ends Does not define the structure or ending.	-5		
Limited Engagement Stops engaging with the chatbot after the first request.	-2		

Round 1 total: _____	Round 2 total: _____	Change: _____
----------------------	----------------------	---------------

Exit reflection: What did you change between rounds, and why did it improve the academic interaction?

Tool Mode

DIRECT AND REFINE A DEFINED OUTPUT

TASK: Design a new _____.

Complete the same academic task twice. After each round, a peer scores the conversation—not only the final answer. Add positive points, subtract negative points, and compare what changed.

POSITIVE POINTS	Value	Round 1	Round 2
Clearly Explains What Needs to Be Created “Your task is to...”	+5		
Gives Clear and Specific Directions “Include... Use... The final output should...”	+5		
Anticipates Missing Information “Let me know if I need to provide more direction.”	+5		
Assigns a Role to the Chatbot “You are a(n)...”	+5		
Refines and Directs the Output “Adjust... Make it more... Remove...”	+5		

NEGATIVE POINTS	Value	Round 1	Round 2
Gives Vague Directions “Create...”	-5		
Outsources Creative Judgment “You decide what’s best.”	-5		
Accepts the First Output Without Refinement “That’s fine.” (No feedback or changes.)	-3		
Limited Engagement Stops engaging with the chatbot after the first request.	-2		

Round 1 total: _____	Round 2 total: _____	Change: _____
----------------------	----------------------	---------------

Exit reflection: What did you change between rounds, and why did it improve the academic interaction?
